October 14, 2026

To Whom It May Concern,

It is my pleasure to recommend Alan Luk (Ho Lung) for fresh graduate roles in AI and Full-Stack Engineering. Alan served as an AI & Full-Stack Engineer Intern at Starrycraze Technology Limited from March 2026 to July 2026, under my direct supervision.

During his internship, Alan contributed significantly across our engineering initiatives:

- AI & Automation: Built an automated Discord content bot using LLMs and multi-API orchestration, seamlessly managing deployment on GCP.
- Full-Stack & Web: Developed an interactive 3D landing page (starrycraze.com) using Three.js and Next.js, and integrated AI analytics features into our platform.
- Engineering Practice: Authored internal system architecture documentation and applied prompt engineering for targeted marketing campaigns.

I am confident Alan will be a valuable asset to any engineering team and whole-heartedly recommend him. Please feel free to contact me if you have any questions.

Yours sincerely,

Tracy Wong
